

## **Love Can't Wait!**

**You say you love me you say you care.**

**But, I am the only one crying here.**

**The day you think of me the day you dare.**

**You're lying and you know it when you say that you care.**

**What we share what we have**

**It's just slipping away.**

**And now you want to leave I bet.**

**I'll miss you when you're gone.**

**Don't leave me just yet.**

**I'm holding on to this day!**

**Love can't wait for you no more.**

**Love can't wait for you to come back through that door.**

**Love can't wait can't you see? (Don't you wait!)**

**Love can't wait for you or for me.**

**You said you loved me you said you cared.  
But, you went on and left me back there.  
The way you treated me girl it was so unfair.  
I'm dying here and you don't seem to care.**

**What we had what we shared  
Was it just in passing?  
You're gone now and I pretend I don't care.  
But, I miss you girl can't you see?  
This love is driving me mad!**

**Love can't wait for you no more. (No it won't)  
Love can't wait for you to come back through that door.  
Love can't wait can't you see? (Love can't wait)  
Love won't wait for you or for me. (It's too late)**
