

## **Your Eyes Of Blue!**

**As I lay my loving eyes upon you**

**You know I love you**

**It's obvious to see.**

**With your ways and eyes of blue**

**I know you love me**

**I feel it obviously**

**To have you**

**I think to myself all the time**

**My story has been told**

**I know one day you will be gone**

**And we will be separated**

**Body but not soul.**

**I love you now and forever**

**I cherish this moment. I hold your hand.**

**You are the best the one and only**

**How do you carry this load it seems so lonely**

**I will bare your load. Place it upon my shoulders**

**I will carry your world if it eases your pain**

**When I need to know right from wrong**

**I will think of you**

**I will think of your ways and eyes of blue**

**I miss you man, now and forever**

**I will hope to make you proud, I sing it loud.**

**I will see you again someday and take your hand**

**And look upon you once again**

**With these loving eyes that's true**

**Looking back at me with your eyes of blue**
